**Request Description**

Short Description :

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. 552, Cable News Network, Inc. ("CNN") requests access to and copies of (in pdf form, where possible) all communications, documents and records held by the Environmental Protection Agency related to the creation and announcement of EPA's newly announced January 25, 2018 guidance memorandum withdrawing the "once in always in" policy for the classification of major sources of hazardous air pollutants, under section 112 of the Clean Air Act, to be reclassified as "area" sources when the facility limits its potential to emit below major source thresholds. To clarify, "all communications, documents and records" should include all internal or external correspondence between EPA officials and staff and others outside EPA, pertaining to the newly announced guidance memorandum, and include all facsimiles, reports, communication, letters, office emails, private emails, power-point presentations, minutes of meetings, schedules, lists, slides, written notes, and/or other forms of information in which the guidance memorandum and its contents are referenced. Also to clarify, the precise dates for said communications and documents described above that we seek are from September 1, 2017 until January 31, 2018. The records request also pertains to any and all records on these topics that are in or on the personal computers, cellphones or other electronic devices, or personal email accounts used by EPA staff if used for any government purpose. If CNN's request is denied in whole or part, we ask that you justify all deletions by reference to the specific exemptions of the Act. CNN will also expect you to release all segregable portions of otherwise exempt material. CNN reserves the right to appeal your decision to withhold any information.
